

Hra s Ekozaměřením

Třídění odpadu

Papír, plast, kov, bio, sklo, směs

Varianta pro mladší děti a pro starší děti

Kartičky jsem volila ve velikosti, která se vleze do toaletní roličky.

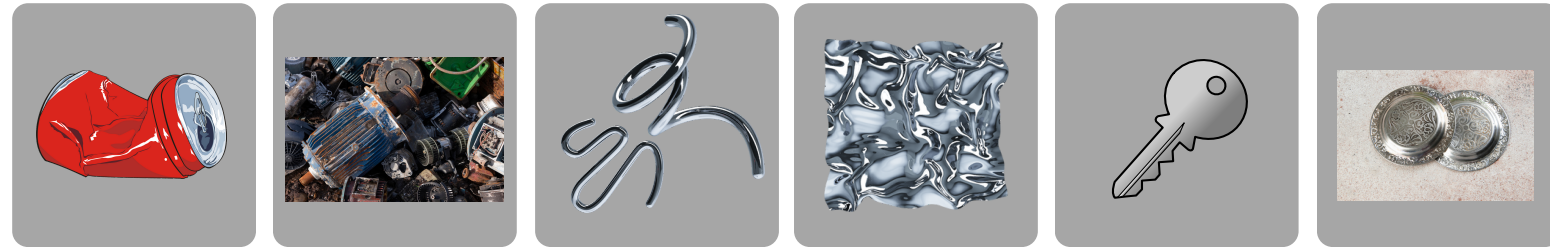

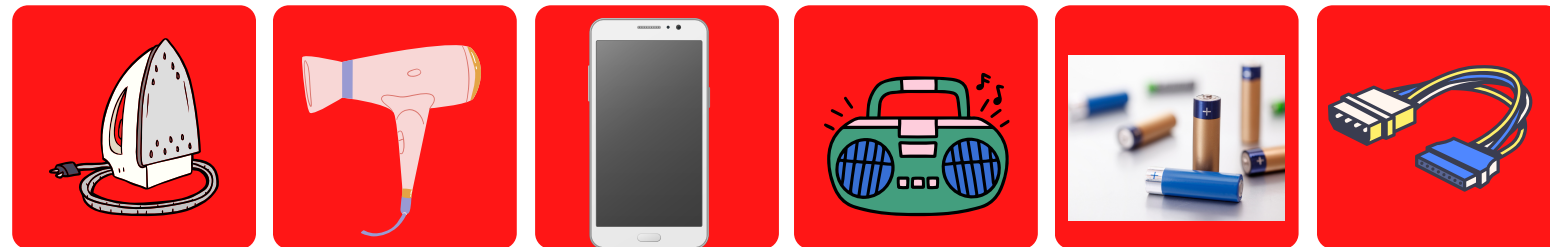

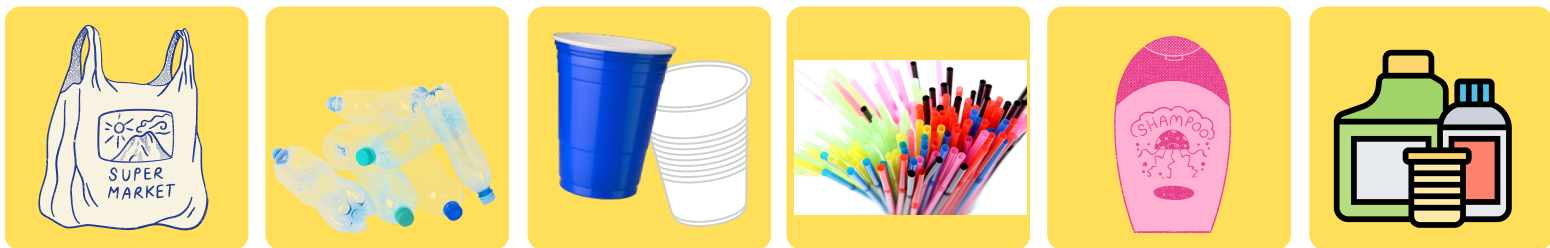

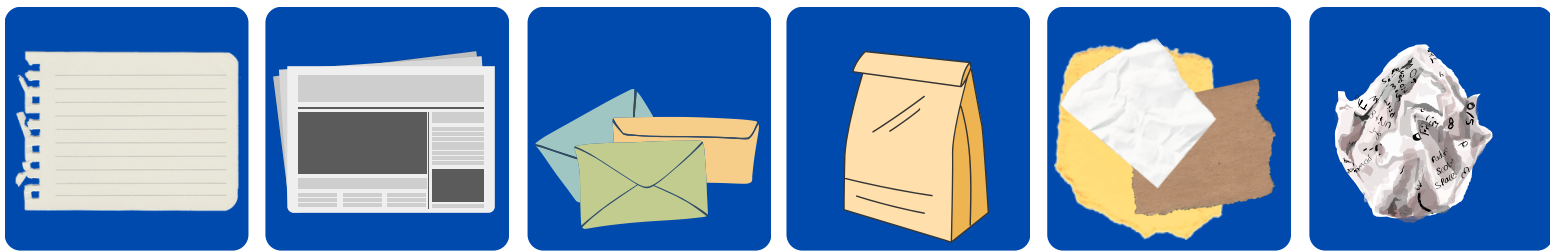

Lze hrát jako pexeso - když vytisknete 2x

Nebo jen jako výuková pomůcka, kdy

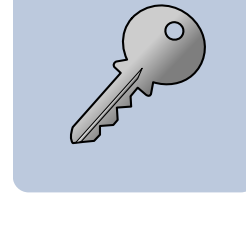

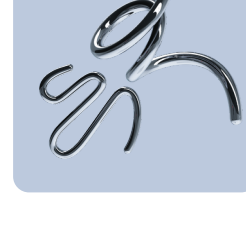

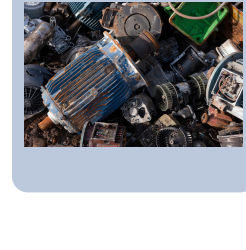

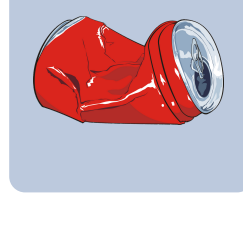

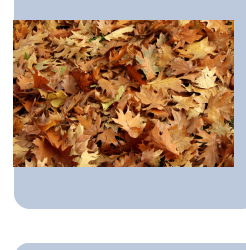

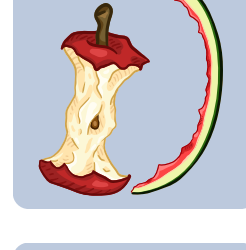

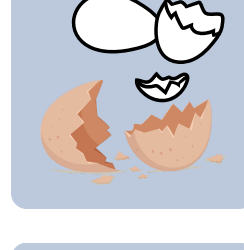

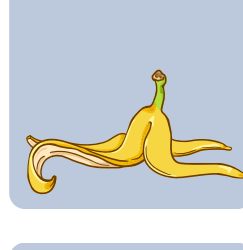

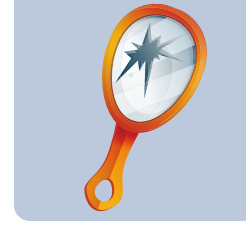

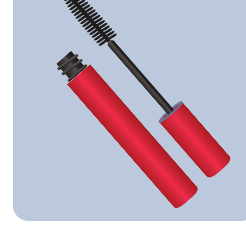

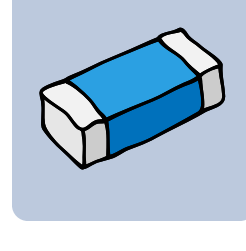

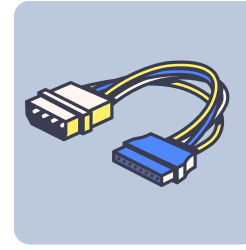

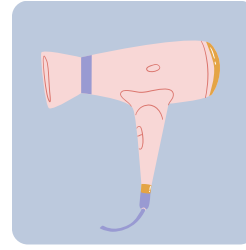

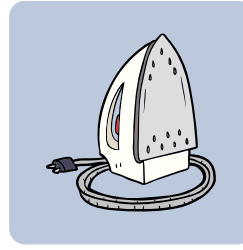

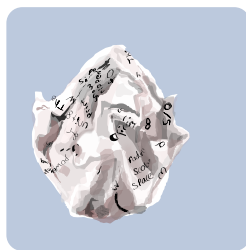

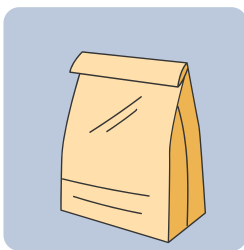

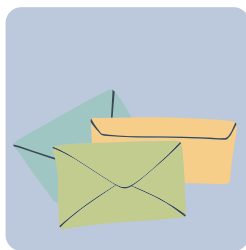

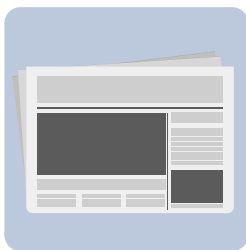

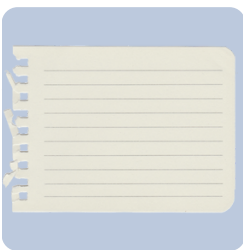

"uklízíte" odpad do správných odpadkových košů, které lze vyrobit z toaletních roliček a natřít příslušnou barvou.

Třídění odpadu. Obtížnost 1. Věk 3 - 4 roky

Třídění odpadu. Obtížnost 2. Věk 5 a více let

Hrací kostka

Poskládejte a slepte si kostku. Která barva padne, do té musíte uložit správný odpadek.
Pokud padne šedá a černá - můžete si vybrat.
