

# Ledová princezna

potřebuje krystaly na svou korunu.  
Najdi ke každému dvojici a spoj je čarou.

## HLEDEJ DVOJICE

Který krystal je jen jeden  
a bude uprostřed koruny?  
Zakroužkuj ho!

# KTERÝ JE JINÝ?

Podívej se

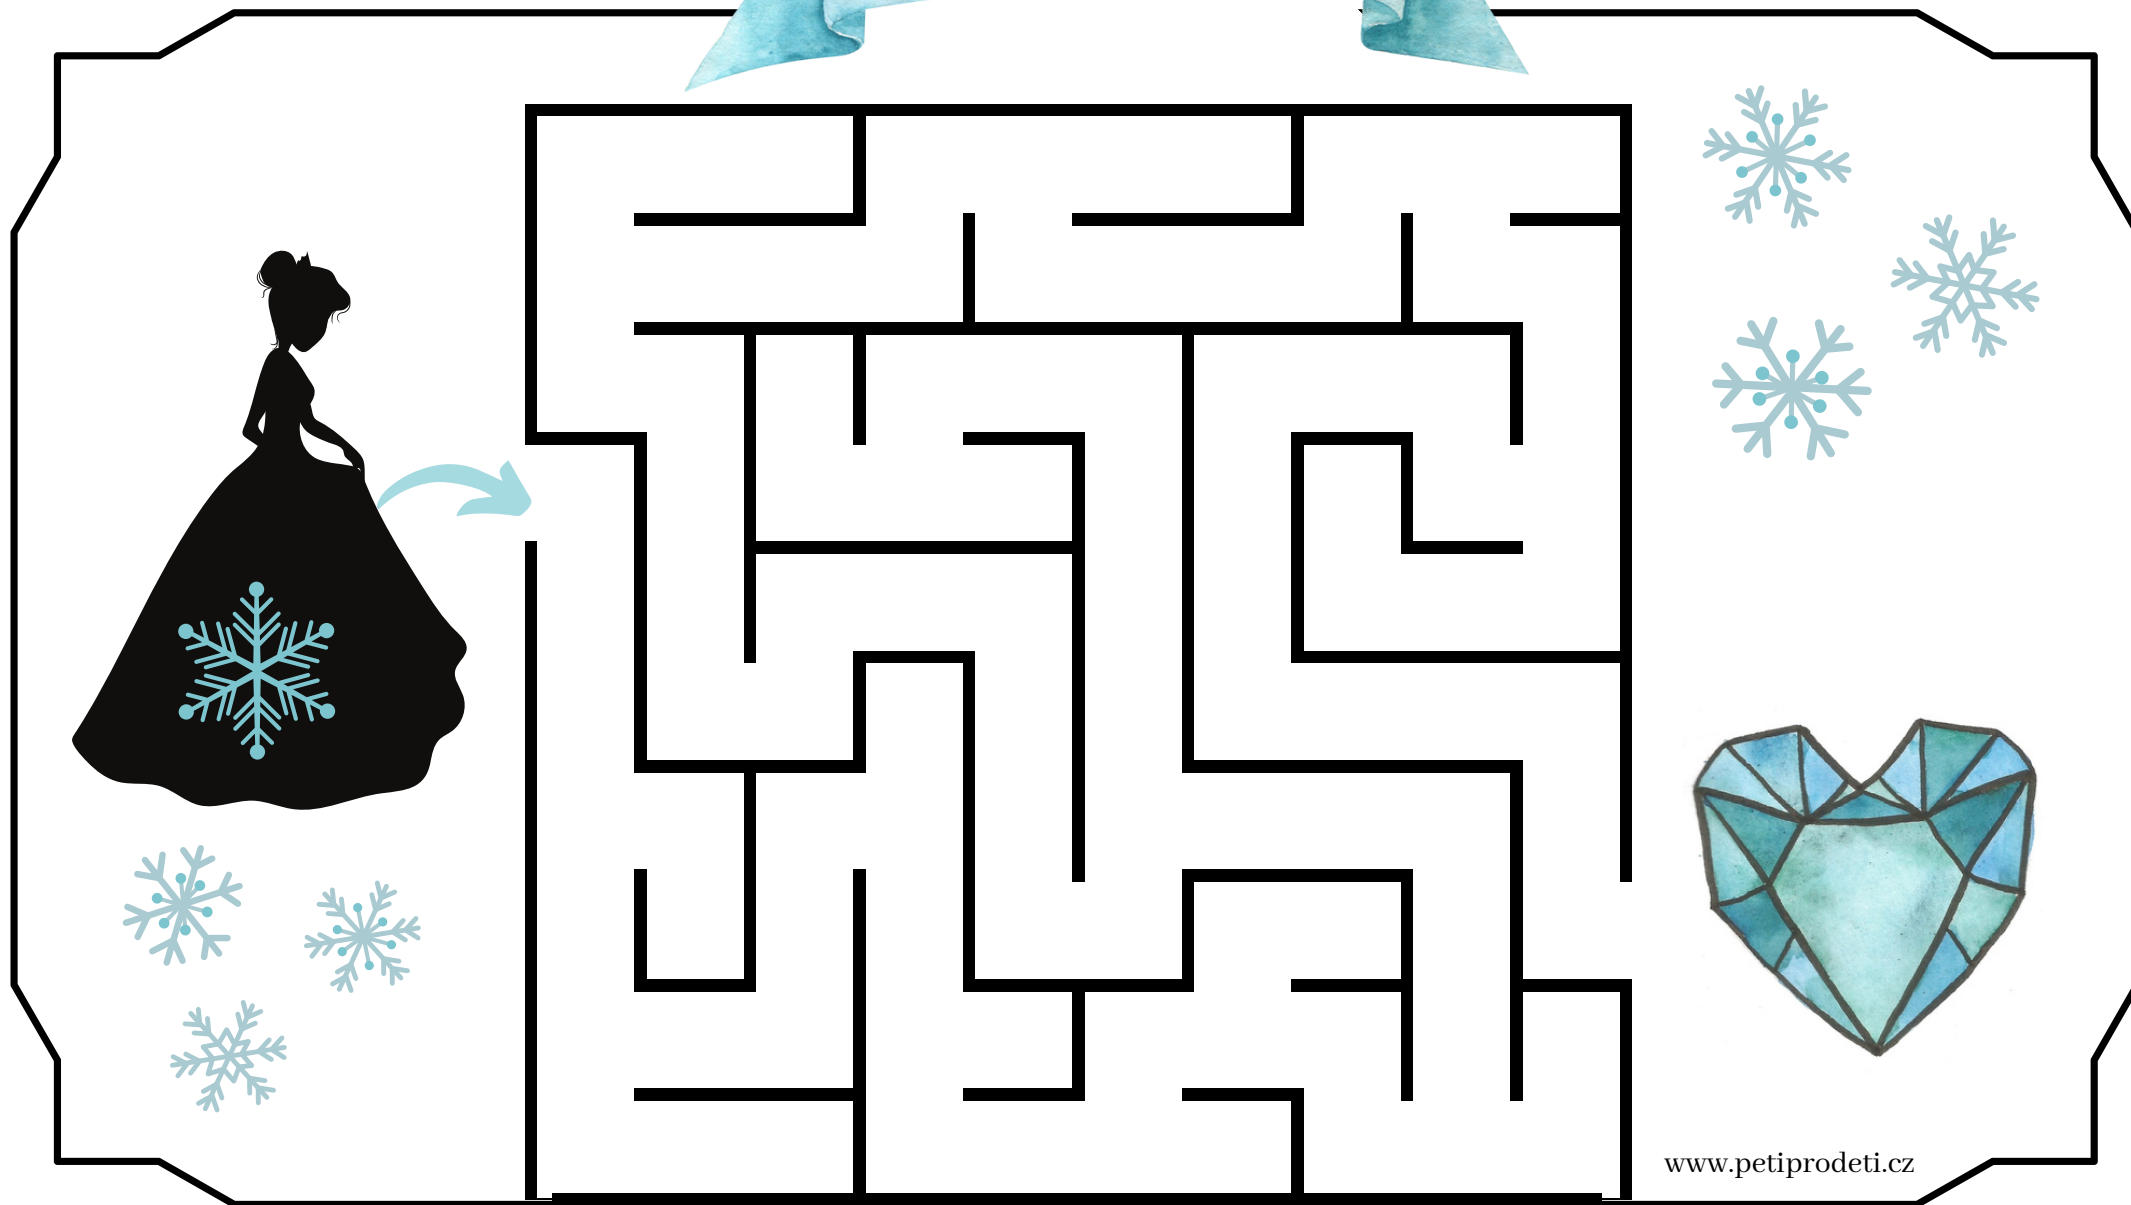

na na každou řadu krystalů  
a zakroužkuj ten, který je položen jinak, než ostatní.

Jejda, našemu sněhulákovi se mezitím poztrácely knoflíky!  
Dokreslíš mu je?

Prosím, pomoz princezně  
projít bludištěm a získat zpět ledové srdce.

# BLUDIŠTĚ

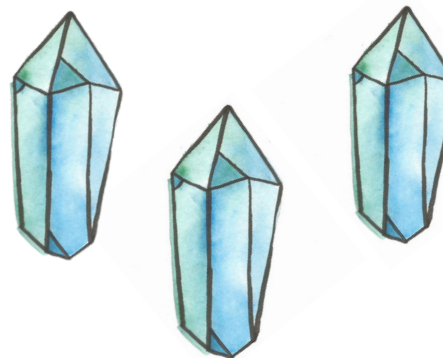

Kolik krystalů je na každé z kartiček?  
Udělej stejný počet teček do rámečku  
a obtáhni si číslo.
