

Valentine's Day

Forbidden Words

How to play the game?

Divide students in pairs / small groups and give them the cards. They need to split them and they can't show them to their partner. The goal is to describe the **bold** word without mentioning the expressions (nor their roots) below them. Then, if they answer the card, they keep it. The student who gets more points wins.

It is something boys buy for their girlfriends. It is natural and colourful, the basic colour is green, there are more pieces of this thing in the "package". There are for example tulips or daisies. It usually survives for about two weeks...
